

Recycled Materials Project Examples

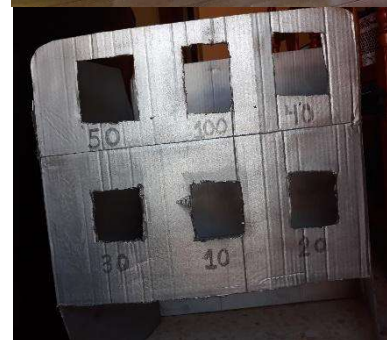

Name of the material created: Bean Bag Toss!

Materials Used:

- Cardboard box.
- Paint, gloss, or anything used to decorate. In this case, silver spray paint.
- Old socks.
- Rice.
- Thread.
- Black or Gray marker.

Steps for construction (with pictures):

1. Measure and cut out 6 10x10cm holes in the cardboard box, leaving space between them.
2. Paint the box with the spraypaint and wait for it to dry.
3. With the black marker, write the points from 10 to 100 in the space under each of the holes.
4. Fill the socks with rice and seal them by sowing the open edges with thread. For this game, we need 5 "bean bags".

Rules of the game:

- The game consists of tossing the bean bags at the holes from a short distance.
- When the bags enter the hole, you earn the points indicated under the hole.
- The objective of the game is to obtain the maximum score with 5 tosses.

What skills does the game practice?: Aim, tossing abilities, and a some arm strength

Observations: Make sure that the bean bags enter the holes.

Picture Using it: (Everyone puts a their own picture)
