

Segundo: Simple Polynomial Operations

Basic explanation of Polynomials: This link gives a detailed and simple explanation of polynomials. After reading through the material, students can test their knowledge by answering the questions at the bottom of the webpage.

<https://www.mathsisfun.com/algebra/polynomials.html>

Degree Classification: This link explains how polynomials are classified by degree.

<https://www.mathplanet.com/education/algebra-2/polynomial-functions/basic-knowledge-of-polynomial-functions>

*****More practice:* This link provides an educational video reviewing the basics of polynomials. Students can go at their own pace. After the video, students can test their knowledge by answering questions!

Tercero: Standard Polynomial Division:

Dividing Polynomials: This is another Khan Academy link. It does a good job a reviewing the concepts.
