sorry

It is dark outside, and I still feel your heavy breath down my spine, while you're opening ^{up} my chest. Your hands are cold, and I know you're already deep into my ribcage. My throat slowly filling up with fresh blood as I slowly feel your arms pressing the insides of my guts.

Now, you're scratching my neck with the objective of parting it in two. At this point, I can't differentiate the sound of the strong wind with your breath. And I already anticipated that a single touch of yours could turn into 100, so that's what happened. I felt a hundred hands inside my torso, parting my bones and organs while dislocating every part of me.

My ribs were already open for everyone to mix my insides so I couldn't remember what my original form was, although I can't say I didn't enjoy this, after all, this feels like being a real human.
