### Hasan Ozan Başkan

I am a geography teacher for 21 years. I have been working for 6 years in Salihli, my hometown. My master thesis was the geographical features of Salihli located in the geopark area. At the same time, I am the guide of the Kula - Salihli Unesco Global Geopark. The geography which we are located has been an important center of civilization since the first civilizations, besides the physical geography elements. Ancient cities, cultures, natural beauties are places worth seeing and getting informed about. I believe that the effective use of the Geopark in education is very important with its values and I am looking forward to knowing the natural and cultural values in the regions where my project partners are located. It will be a very nice project together.

# COUNTRY PRESENTATION

## TURKEY

Turkey

Turkey officially the Republic of Turkey, is a transcontinental country located mainly on the Anatolian Peninsula in Western Asia, with a smaller portion on the Balkan Peninsula in Southeastern Europe. Turkey is bordered on its northwest by Greece and Bulgaria; north by the Black Sea; northeast by Georgia; east by Armenia, Azerbaijan, and Iran; southeast by Iraq; south by Syria and the Mediterranean Sea; and west by the Aegean Sea. Approximately 70 to 80 percent of the country's citizens identify as Turkish,[10][11] while others are the largest minority, at between 15 to 20 percent of the population. Istanbul, which straddles Europe and Asia, is the country's largest city, while Ankara is the capital.

## SALİHLİ-MANİSA

Salihli, located in Turkey's Aegean province of Manisa is one of the districts. It is famous for its wood patties, cherries and grapes. The ancient city of Sardes, where the first coin was minted in history and now included in the UNESCO World Heritage Temporary List, is located in this district. The district is one of the most important centers of the region in terms of history, nature and thermal tourism.

# GEPARK PRESENTATION

## KULA-SALİHLİ GEOPARK

The Kula-Salihli Volcanic Geopark is located within the borders of Manisa Province, on the Western Anatolia - Aegean threshold. The Kula-Salihli Volcanic Geopark area, which covers an area of approximately 300 km<sup>2</sup>, includes Salihli District and Sandal Town, Gökçeören (Menye) Town, Adala Town and Gökeyüp Town, although most of them are in Kula District. Western Anatolia is located in the Alp-Himalayan mountain formation belt. The Alp-Himalayan mountain formation belt was formed as a result of the northward movement of the African Arabian and Indian Plates and collisions with the Eurasian Plate. Turkey's continental collision neotectonic interval by causing crustal thickening and shortening of the East (Arab-Eurasian plates) are characterized.
