Hey! What's up???

Today we are going to read a text about animals in Australia. Do you know where is Australia? Come on! You search on a map where is this country and what is the capital of the country?

ACT1: Listen and read the texts.

koala

Hi! I'm Ben from Australia. Here are some amazing Australian animals.

A koala has got brown or grey fur. It's a herbivore and it eats leaves. It sleeps for 16 to 18 hours a day. Look at this koala. It's eating eucalyptus leaves.

kangaroo

A kangaroo has got strong legs and a big tail. It can jump two metres high! The mother kangaroo carries her baby in a pouch. Look! Here's a mother kangaroo with her baby.

platypus

A platypus has got a beak, brown fur and a tail. It's a carnivore and it eats insects and fish. A platypus can swim and it hunts animals in the water. Look at this platypus, it's swimming in a river.

dingo

A dingo has got brown fur and a big tail. It's an omnivore. It eats rabbits, birds, lizards and plants. Look! This dingo is running on the beach.

ACT2: Write the new vocabulary in your notebook and translate in Spanish.

Recuerda que lo importante es entender el texto, no entender palabra por palabra. Lo digo por si alguna palabra no la encuentras en el diccionario, ¡No te agobies!

ACT3: Answer the questions in your notebook. Read the texts one more time if it is necessary.

Copy and complete. 

- 1 A platypus has got a beak, ... and a tail.
- 2 A ... sleeps 16 to 18 hours a day.
- 3 A ... is an omnivore.
- 4 A mother ... carries her ... in a pouch.
- 5 A ... is a carnivore.
- 6 A ... has got strong legs and ... tail.

YOUR GO!

What's your favourite
Australian animal?
