

## SCARY THOUGHTS

Entresieras bilingual students experienced Halloween, once again, by enjoying this English native festivity from different perspectives.

The origins, meaning and traditions of Halloween were approached by the History bilingual teacher during his lessons. ESO 1st, 2nd and 3rd Year students learned about the ancient Celtic festivities of Samhain and the Truth mouth and how it has evolved into a day of activities like trick or treating or hunting houses.

Robotics and computer teacher, helped students with the creation of a poster based on Halloween theme that showed about another activity carried out this year- a scary cake contest.

Students and teachers were honest with themselves by bringing their scariest thoughts into the Truth mouth which had been extraordinarily decorated by the bilingual art teacher and his students.

Screams, shrieks and shouts are Halloween must-haves and this year, Entresieras bilingual team contributed to make students' yells be heard by half the high school with our traditional haunted hall, turned into the Truth mouth.

All Saints' day festival "castañada" based on roasting and eating chestnuts took place this Halloween. Spanish festivity was combined and connected with the English one in an attempt to strengthen both cultures.

Delicious scary cakes, the truth mouth filled with frightening thoughts and chestnuts, all together made a difference on both students and teachers this year
