Biology y Geology

INTRODUCTION

I'm going to make the phases of the moon in an OREO cookie.

MATERIALS

Oreo cookies

ice cream stick

HOW AM I GOING TO DO IT

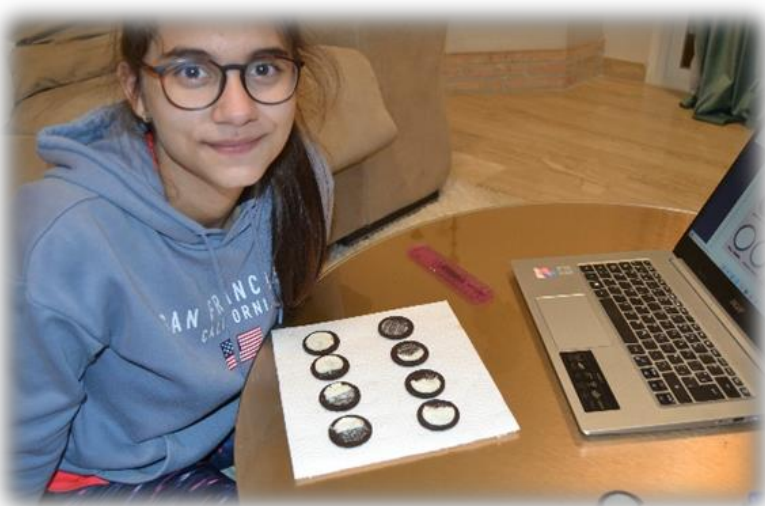

First I will slowly twist an Oreo to maximize the amount of frosting on one side when separating the halves.

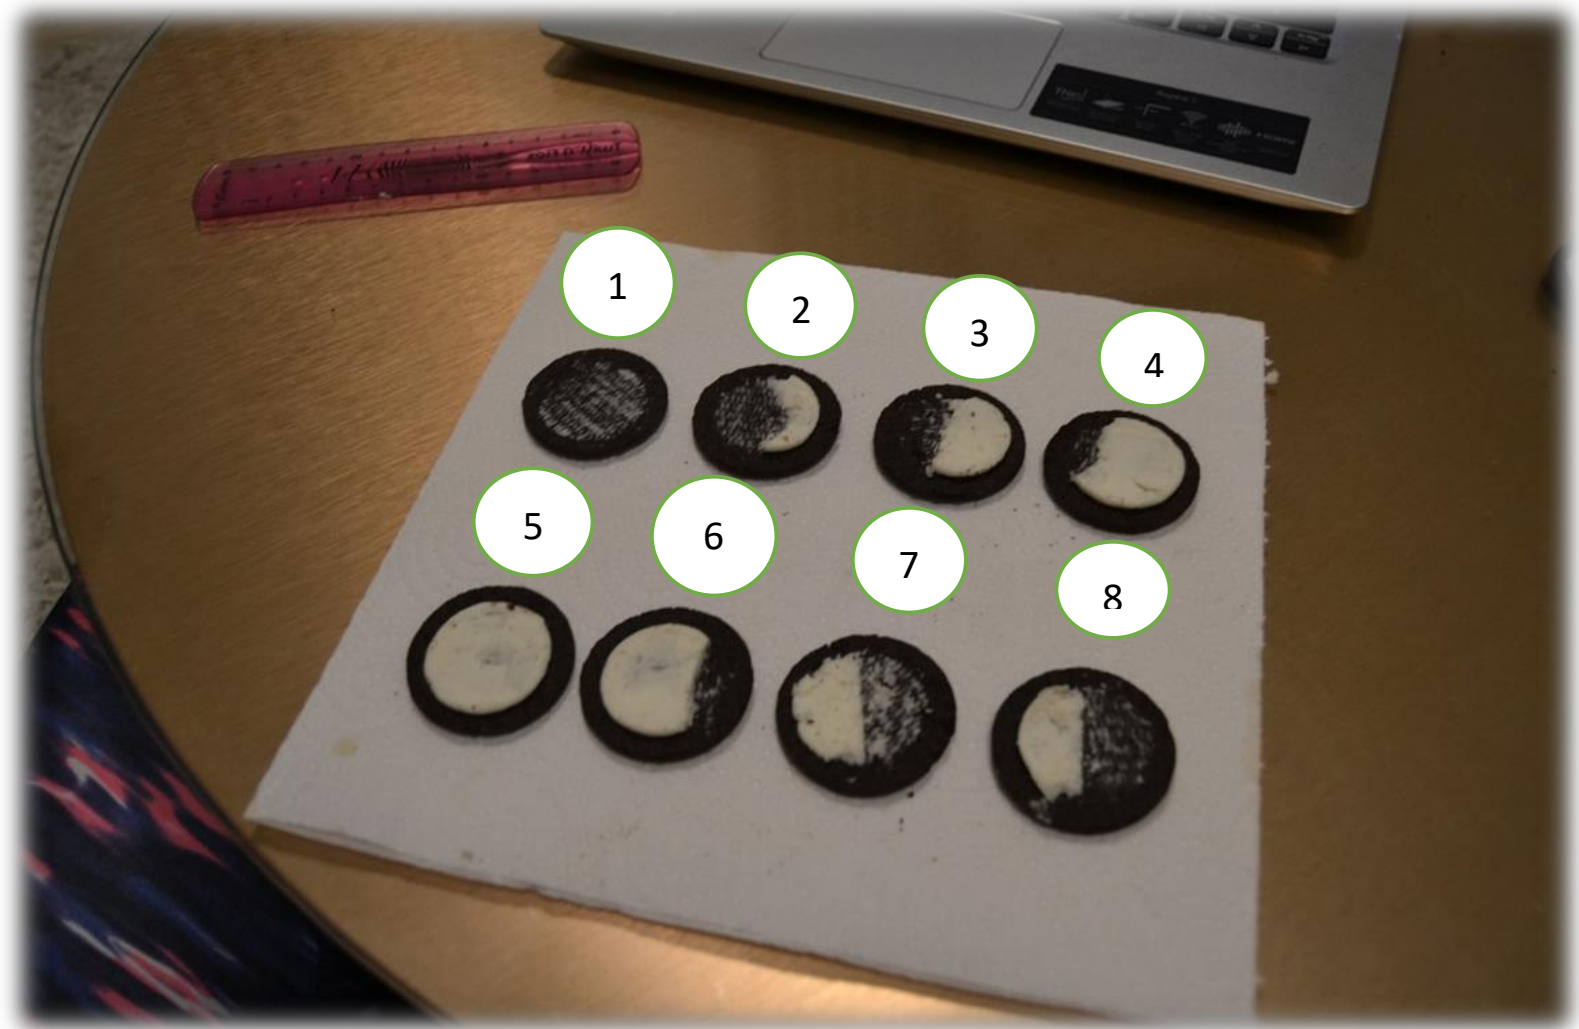

Then I'll use the ice cream stick to create the phases of the moon from the frosting.

And finally I will organize the phases of the moon in order.

1. NEW MOON
2. WAXING CRESCENT
3. WAXING HALF (first quarter)
4. WAXING GIBBOUS
5. FULL MOON
6. WANING GIBBOUS
7. WANING HALF (last quarter)
8. WANING CRESCENT
