Information about the town and/or neighborhood	Iznalloz was a military town since the Romans used it as a strategic enclave to defend the road that linked Tarraco with the eastern Andalusian coasts. The whole of the municipality is mainly dedicated to agriculture, especially the cultivation of olive groves, whose olives produce one of the best olive oils in Spain. Iznalloz's main tourist attraction is the Cueva del Agua (Water Cave). This is a long cave with numerous galleries from the Jurassic period, lakes of varying depths, a riverbed inside and cave paintings. Near the municipality, among pine woods and aromatic plants, in the heart of the Sierra Arana, is the recreational area of El Sotillo. It currently has a tourist complex that includes several restaurants and a Mycological Museum. It is ideal for adventure sports
Getting to school	There are some options to rent housing in the same village, ask the person who coordinates the project. Most of the language assistants tend to live in Granada. In this case you could join the car pool with a cost of approximately 4/5 euros per day.
Accommodation	- Use fotocasa or idealista apps for apartment searching in Granada if that's the option. Most auxiliares have shared apartments in the past few years
Contact with other Language Assistants	We recommend to reach out to other auxiliares via Facebook or Whatsapp; Ask the school coordinator for contact information once the placement is confirmed by each auxiliar.
