IES SAN ISIDRO DE NÍJAR

The beginning of a dream

Where is our school located?

Our school is located in San Isidro de Níjar, a quiet village in the province of **Almería** in southern Spain. Just a short drive from the city of Almeria and the stunning **Cabo de Gata-Níjar Natural Park**, it offers an ideal location for exploring some of the most unspoilt beaches in the Mediterranean, such as Playa de los Genoveses or Mónsul. Surrounded by nature and traditional farmland, San Isidro is perfect for those seeking sun, tranquillity and authentic Andalusian charm.

Information about our school

1. Our student body is characterised by its cultural diversity. They range in age from 12 to 18 years old.

2. This is our first year as a bilingual school.

3. Some of the methodologies we develop: cooperative learning, flipped classroom and gamification.

4. We are still waiting to find out if we have funding.

Projects

Our aim is to work and collaborate in the development of **three projects** with very well-defined objectives.

01 I take care of the environment, I take care of my future

02 Together We Create a Better Space

03 Transforming the Classroom with New Methodologies and Technology

Project 1. 'I take care of the environment, I take care of my future'

Age range: 11-13 years old.

Brief description: This project aims to raise awareness among students about the importance of caring for the environment and recycling to acquire habits that can be applied in the educational center and its surroundings.

Final Products

01

Ten Commandments of Best Practices to Raise Awareness about Climate Change and Recycling.

02

Posters to Disseminate the Ten Commandments and Raise Awareness about Environmental Care on Social Media and at School.

03

Creation of a Trivia-Style Game About the Environment and Recycling

Project 2. 'Together We Create a Better Space'

Age range: 12-16 years old.

Brief description: This project aims to raise awareness among students about the importance of positive coexistence in schools. We will actively work to improve interpersonal relationships, foster respect for diversity, and promote inclusion for all members of the school community.

Final Products

01

Short videos: Everyday scenes on how to resolve conflicts peacefully, the importance of empathy, etc.

02

Podcasts: Interviews, debates, and reflections on coexistence, gathering the opinions of students and teachers.

03

Creative Posters: Posters designed by students with positive messages.

Project 3. 'Transforming the Classroom with New Methodologies and Technology'

Age range: 14-16 years old.

Brief description: The main objective of this project is to transform the classroom learning experience through the active incorporation of new educational methodologies and the strategic use of ICT. We seek not only to improve students' academic performance but also to enhance their digital competence, preparing them for the challenges of the 21st century.

Final Product

**01**

Create a database of best practices, tutorials, and resources on the methodologies and digital tools explored, to share with the educational community through the eTwinning platform.
