# EXPERIMENT TIME!

1. Write this **question** on the board and read it loudly. 

Can you separate mixtures?

2. Trace your **hypothesis**. 

I think I can separate sand and water with my hands.

I think I can separate sand and water with a filter.

I think I can separate sand and water with a magnet.

3. Try and separate the mixture with your hands, a filter and a magnet. 

4. Draw the results.

5. Trace your **conclusion**. 

I can separate sand and water with my hands.

I can separate sand and water with a filter.

I can separate sand and water with a magnet.

How do you feel? Colour and write.

happy

so-so

sad

I feel ..... about my experiment.
