## My Version

Sun, a star, a flaming star  
Earth revolves around the sun  
Seasons are caused by Earth's tilt  
Winter, spring, summer, fall  
In summer, sun's rays are more direct  
In winter, sun's rays are less direct  
Solstices are short or they are long  
And that makes equinoxes equal!

## Original Version

Doe, a deer, a female deer  
Ray, a drop of golden sun  
Me, a name I call myself  
Far, a long, long way to run  
Sew, a needle pulling thread  
La, a note to follow sol  
Tea, a drink with jam and bread  
And that leads us back to do!
